MEMORANDUM FOR SENIOR OFFICIALS FOR INFORMATION
RESOURCES MANAGEMENT

FROM: WENDY L. GRAMM *wly*
ADMINISTRATOR FOR INFORMATION AND
REGULATORY AFFAIRS

SUBJECT: Five-Year ADP/Telecommunications Plan

Attached for your information is a copy of the appendix (Volume II) to the fifth annual edition of "A Five Year-Plan for Meeting the Automatic Data Processing and Telecommunications Needs of the Federal Government." The plan is produced to meet the requirements of Section 3505 (3)(E) of the Paperwork Reduction Act of 1980. It is the result of a collaborative effort on the part of the Office of Management and Budget's Office of Information and Regulatory Affairs, the General Services Administration's Information Resources Management Service, and the Institute for Computer Sciences and Technology of the Commerce Department's National Bureau of Standards.

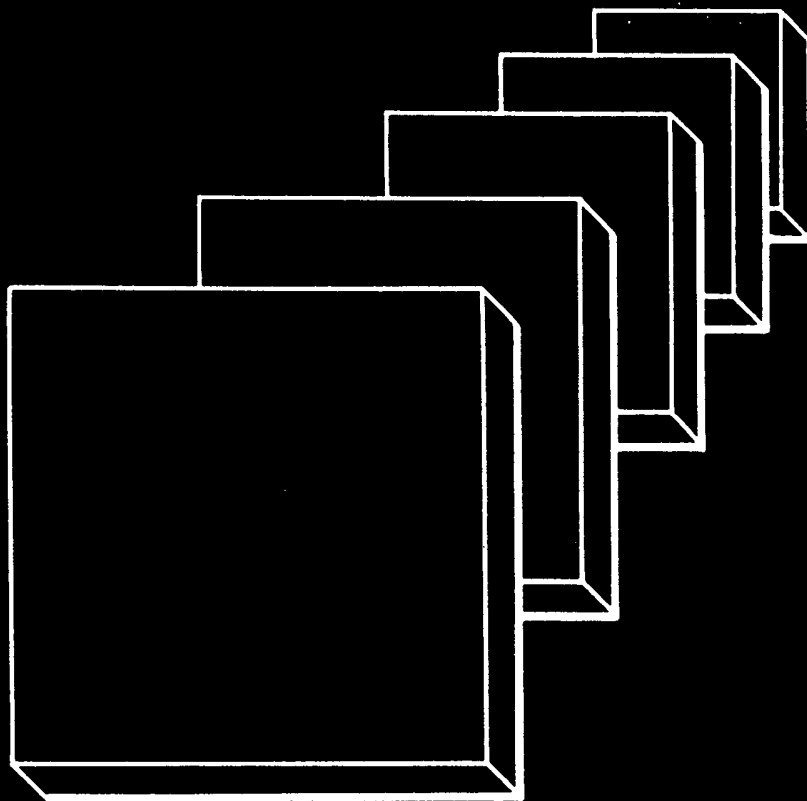

We are again publishing this document in two stages. We printed the appendix (Volume II) first because it is a straightforward compilation of information obtained in the budget process (Exhibit 43-B) in which there is considerable vendor interest. The appendix contains the FY 1988 information technology acquisition plans of the Federal Government from FY 1987 through FY 1992 broken down by agency and component.

Volume I of the plan will contain more analysis and will include agency planning information collected through OMB Bulletin No. 87-10.

If you receive calls for additional copies of the appendix, you may refer callers to either the National Technical Information Service (NTIS) or the Government Printing Office (GPO). The stock number for ordering the appendix from GPO is: 041-001-00324-0. The price of the appendix is \$29. We do not yet have specific ordering information from NTIS.
